Item specifics

Condition: New: A brand-new, unused, unopened and undamaged item in original retail packaging (where packaging is ... Read more
Output Wave Form: Pure Sine Wave
Color: Black

Brand: DOPOWER
Model: 1000W-12V
MPN: Does not apply

Net weight:	1,8kg	Input DC Voltage:	12V
Size:	285*150*55mm	Output AC Voltage:	240
Remote controller:	Optional	Number of Outlets:	2
EAN:	0764880632743	Max. Output Power:	2000W

Features:

- **True pure sine wave** (Not modified sine wave)
- Input low voltage protection, overload protection, over temperature protection
- Reverse polarity
- Soft-start function
- Automatic voltage regulation(AVR)
- Intelligent power management (IPM)
- **Intelligent, cool and quiet fan control.** The fan is temperature and wattage controlled. It is quiet, effective and environmentally friendly.
- **The remote controller** panel shows battery power, low voltage alarm signal. With 86 type panel size, it is easy to install. The remote controller is with RS485 network interface. You can adjust the length of remote cable as you need, very convenient to monitor and operate the inverter in distance. The switch button is already lit. This makes it easy to switch on a dark parking lot at night in the dark.
- We test each item again before shipping!

Attention: This 12V inverter is German standard plug, if you use it in UK, Please note that an adapter plug is needed. This inverter can be properly used in UK.

Possible Uses:

- **Equipment:** Computer, Printer, Monitors, Fax Devices, Scanner
- **Entertainment Electronics:** TV, DVD-Player, Play Consoles, Hi-Fi Systems, Instruments, Satellite Decoder
- **Household Appliances:** Vacuum Cleaner, Fans, Electric Shaver, etc...
- **Kitchen Devices:** Coffee Maker, Mixer, Ice Machines, Toaster etc...
- **Electrical Tools:** Drill, Grinding Machines, Pruning Shears, Compressors, etc...

Ideally suitable for Journeys, Camping, Tents, Boat Trip, Working outdoors everywhere, where is no electricity! Simply connect the Power Inverter and then connect to electrical appliances.

Specification

Model No.	1000W-12V
Output Continuous Power	1000W
Output Peak Power	2000W
DC Input Voltage	DC 12V
DC Working Voltage	11-14,5V
DC Input Low Voltage Protection	10±0,5V
DC Input Over Voltage Protection	14,5V
No-Load current Draw	≤0.7A
Output Wave Form	Pure Sine Wave
AC Output Voltage	220V±5%
Frequency	50Hz±0.5Hz
Inversion Efficiency	≥85%

Efficiency	
Overload Protection	1000W--1200W
Fan start temperature	(40±5°C)
Temperature Protection	(70±5°C)
Input Reverse Polarity	HAVE
Output Short Circuit Protection	HAVE
Green LED indicator	Lighting(working), flash slowly(low voltage), flash fast occur and the unit is in protection situation).
Net weight	1,8kg±0,5
Size	285*150*55mm

How to choose an Inverter?

For Inductive Load

If connecting with inductive loads (e.g. Compressor, Pump, old CRT TV, Refrigerator, Air conditioner, Relays, Fluorescent lamp, Vacuum cleaner), please choose inverter is 3-7 times higher than the load's rate power. For example, for a 150w refrigerator is 1000w inverter or higher; for a 800w air conditioner, please choose 2500w inverter

For Resistive Load

If connecting with resistive loads (e.g. Computer, LED TV, Fan, Scanner, Fax machine, Juice extractor, Heater, Electric cooker, Coffee maker, microwave, crock inverter whose continuous power is a little higher than the load's rate power. For near 700w, it's better to choose inverter with continuous power more than 800w.
